

FIRE RESCUE SAFETY AUSTRALIA

A specialist supplier of safety, medical and emergency response equipment

FRSA's business philosophy places customer service as its priority where unbiased advice and support is trusted and relied upon everyday by our clients.

FRSA is a privately Australian owned and operated company where our customers are seen as working partners in our business. With operations in Perth and Brisbane FRSA is positioned well to service your needs whether you are based in Australia or overseas.

FRSA has a global supplier network where we work with the OEM to deliver a unique high quality equipment mix backed by service and maintenance programs to ensure your investment is protected for the life cycle of the product.

Safety

FRSA provides a quality range of products that protect your workforce from all types of hazards in the workplace. From safety eyewear, hard hats and earmuffs to name just a few products through to specialized confined space access equipment, gas detection and breathing apparatus. Whether you employ three or 3,000 staff FRSA can tailor a solution for your company.

Medical

FRSA provides a range of medical equipment to assist you in the pre-hospital trauma life support area. We offer a complete solution for new start up projects that include the establishment of the medical facility, patient transport and all first aid consumables so when your first crews arrive you are ready to respond in the event an accident occurs.

Emergency Response

FRSA provides equipment for all aspects of Emergency Response including vehicle extrication, breathing apparatus, hazmat, search and rescue, fire fighting, rope rescue, confined space and urban search and rescue. We tailor complete packages designed as a bolt on solution for your new project such as emergency vehicles, infrastructure and all equipment needs

Ensure the safety of your business today with FRSA quality products and services.
